To Whom It May Concern:

It is my pleasure to write this letter of recommendation on behalf of Mr. Jim Goldbloom.

Mr. Goldbloom took a Computer Science course with me at Strayer University and impresses the whole class and me by giving educational presentations and different viewpoints on web development technologies from his professional knowledge and work experience.

Mr. Goldbloom is a hard-working self-starter who invariably understands exactly what a project is all about from the outset, and how to get it done quickly and effectively. During the whole course, I cannot remember an instance in which he missed a class session or a project deadline.

He is a resourceful, creative, and solution-oriented person who was frequently able to come up with new and innovative approaches to his assigned projects. He functioned well as a team leader when required, and he also worked effectively as a team member.

On the interpersonal side, Mr. Goldbloom has superior written and verbal communication skills. He gets along extremely well with professors, staffs, as well as students.

My recommendation is very enthusiastic for this outstanding person who I am sure will be a great asset to your organization.

Please feel free to contact me if you have any questions about Mr. Goldbloom.

Best regards,

Hossein. Firouzi, Ph.D.

A handwritten signature in cursive script that reads 'Hossein Firouzi'.

Professor, Computer Information Systems
Strayer University
